

EAHP 2013 SYMPOSIUM

VALUE-BASED DECISION MAKING IN RHEUMATIC DISEASE: CONSIDERATIONS FOR THE PHARMACIST

14th March 2013, 11:45 – 13:15

Le Palais des Congrès de Paris, Paris, France
Room 252AB

Chair: Lorenzo Mantovani

This symposium will examine the differences between the available TNF inhibitors and explore the data from biologic registries, dose escalation studies and new evidence comparing drug survival rates of TNF inhibitors. The potential cost implications of differences in terms of dose escalation and drug survival will be explored, and the clinical and economic implications for patients and pharmacists discussed in an interactive forum.

VALUE-BASED DECISION MAKING IN RHEUMATIC DISEASE: CONSIDERATIONS FOR THE PHARMACIST

A G E N D A

11:45	Introduction	Prof Lorenzo Mantovani (chair)
12:00	Clinical value of TNF inhibitors in rheumatoid disease	Prof Marco Matucci Cerinic
12:20	Long term treatment horizons	Prof Alain Cantagrel
12:40	What does it mean for pharmacists?	Prof Robert Launois
13:00	Panel discussion	All
13:15	Close
